

**NEWSLETTER 9 : PARTNERS**  
**DIDACTIC MANUAL DRAFT IN ENGLISH**

Dear partners,

We would like to remind you that our obligation with the European Commission is to elaborate a basic didactic manual. You are receiving by e-mail an attached file with our draft in English.

Please note that each country is obliged to compose the part 3 of the didactic manual. You will find as an example the part 3 from Bulgaria that we have already added to the manual's draft in the annex.

Until now, we have received the part 3 from Bulgaria, Greece, Portugal and Poland. For the remaining countries: We kindly ask you to compose the part 3 for your country as soon as possible and to send us the document until 20th February 2006 at the latest.

After having the final versions of the didactic manuals and the parts 3 of all countries, the didactic manuals should be translated into the language of each country. Please send us an estimation of the translation costs in your country as our budget will only pay the cheapest translation possibility. That means, in case the translation in your country is more expensive than in our country, the translation has to be made here. Please let us have this information as soon as possible to decide where to translate the didactic manual as we need to have the translated documents until 20th March 2006.

If you have any question, please do not hesitate to contact us.

Thank you in advance for your collaboration!
