

NEWSLETTER 26: PARTNERS
INTEREST INFO FOR PARTNERS

Dear partners,

We would like to inform you about the following subjects:

DATABASES:

1. Our new database of "experiences" is now active on our website, link: http://www.e-cons.net/tools/experiencias/base_experiencias_index.php?idioma=EN. At this moment, only the partners have access using their usernames and passwords but this will be changed within next days, so that all partners and also teachers will have access without using any password because also the teachers should enter their experiences in our database. Therefore, we kindly ask you to start to enter your own projects as well as to ask teachers to enter their projects.
2. Regarding the database of "didactic materials", we kindly ask you to enter the next 10 materials into this database. As you remember, it has been agreed to enter at least 10 materials per year.
3. In case of the database of "European institutions", we kindly ask you to enter as much as possible institutions.

As we have made some modifications in the last two databases, it can be possible that some entries have been changed by the system. Therefore, we kindly ask you to check the entries you have made in the last months. In case you have entered the same information twice by mistake, please let us know in order to delete the wrong or double entry.

The work of the DATABASES should be carried out before the Contact Seminar which will be held in Sofia/Bulgaria from 9 to 13 May 2007!

DIDACTIC MANUAL:

All the translated didactic manuals as well as the annexes and the questionnaires for the evaluation of the manual are available on our website. The link is as follows: http://www.e-cons.net/tools/ing/mat_did_ing_ppal.htm.

1. Please complete the questionnaire of evaluation and send it back to us as soon as possible.
2. Furthermore, please ask the teachers/persons in charge of your countries to complete the questionnaires and send them to us as soon as possible.

Please note that:

- finding teachers for our Contact Seminar
- the work on the databases and
- the evaluation of the didactic manual

are very important tasks, not only for the Contact Seminar in May 2007, but also for the final report which we have to prepare for the European Commission and also for the last payment of staff costs that will be done after the justification of the EC.

Should you have any question, please do not hesitate to contact us.

Thank you in advance for your collaboration.
