Nº 4 Year I

### SUCCESS OF THE 1ST TEACHERS MEETING

In the last month of May (days 12, 13 and 14), the European Meeting of Teachers that work in themes of Consumer Education was held in Santander. The meeting was held in the assembly hall of the Magdalena, in Santander, Cantabria. The event has been organized by the E-CONS NETWORK and managed by the European School of Consumers of the Government of Cantabria. 250 participants from 21 European countries have come to that event.

From this newsletter, I would like to encourage you to pursue the contacts in order to prepare European projects together.

Furthermore, I would like to inform you that it has been published a report with the speeches of the meeting. Its distribution is free of charge, only the delivery costs have to be paid.
