

E-CONS Network

Newsletter

END OF THE PROJECT

Dear E-CONS partners and teachers:

As you already know, the eligible period of the E-CONS NETWORK ends on 30th September 2007. In these three years, we all have had the opportunity to extend our contacts and to share our experiences related to Consumer Education establishing a solid basis in order to continue working together in the future.

DIDACTIC MANUAL

In this month of September, we have edited 21.100 paper copies of the Didactic Manual for the Consumer Education in the Classroom in 20 different languages. In some cases, the manuals have been edited in the partner countries and in some others, they have been edited in Spain and sent to the partners. The teachers who are interested in receiving the manual can contact the corresponding organizations in their countries or, in case of Spain, the corresponding Autonomous Regions.

CD-ROM

We have also edited 17.700 copies of a CD-ROM containing various materials of the E-CONS NETWORK (for example the didactic manual in pdf format in all languages) which will be sent to the project partners within next days.

FINAL REPORT

At this moment, the final report for the European Commission is being prepared. We will keep all partners informed.

Thank you to all of you for your interest and collaboration.
