

**TRAINERS TRAINING MEETING OF THE E-CONS NETWORK
 Valencia, 26th - 28th March 2009**

Questionnaire to be completed by teachers who would like to present
NEW PROJECT PROPOSALS

Name of the teacher: PEPTENATU, ALINA CERASELA
Name of the school: Școala nr. 139 "Mircea Sântimbreanu" Bucharest
Country: Romania
Education level: <input type="checkbox"/> Infantile Education <input type="checkbox"/> Primary Education <input checked="" type="checkbox"/> Secondary Education <input type="checkbox"/> Vocational Training <input type="checkbox"/> Adult Education <input type="checkbox"/> Others
E-mail: alinapep@yahoo.com
Please indicate whether you have experience in the following subjects: <input type="checkbox"/> Energy Saving <input checked="" type="checkbox"/> Responsible Consumption <input type="checkbox"/> Climate Change <input type="checkbox"/> Others
Please indicate whether you have experience in organizing and/or participating in projects: We carried out a Comenius School Partnership in our school, but not a project related to the subjects mentioned above.
Please indicate your expectations regarding the meeting and the exchange of experiences: I am interested in any up-to date information and new ideas about the sustainable development, to get some new teaching methods regarding the Ecology and Environmental Education. I want to acquire some information about the projects of other European teachers, to find partners who have the same ideas regarding responsible consumption.
Title of the PROJECT : We waste, our children pay!
Main subject of the project – Please select one of the following subjects: <input type="checkbox"/> Energy Saving <input checked="" type="checkbox"/> Responsible Consumption <input type="checkbox"/> Climate Change <input type="checkbox"/> Others
Summary of the project (maximum 5 lines): The main purpose is to implement responsible consumption and to support sustainable development. We want to develop a responsible attitude concerning the saving of the resources (energy, water, wood) by recycling and saving on individual level. The students and the local community (first of all the students' parents) have to be shown the negative impact of the waste on the Earth and they have to be educated to save through a set of proposals on responsible consumption.
Observations/Remarks (maximum 5 lines): We want to initiate a campaign to promote the idea that our successors will not have any future unless we start saving resources. We shall start some specific activities in our school (mass-media presentations, workshops, sorted garbage), sustained by the school publication too.
