

**TRAINERS TRAINING MEETING OF THE E-CONS NETWORK  
 Valencia, 26th - 28th March 2009**

Questionnaire to be completed by teachers who would like to present  
**NEW PROJECT PROPOSALS**

Name of the teacher: <b>Margareta Van Sas</b>
Name of the school: <b>HIVSET- Turnhout</b>
Country: <b>Belgium</b>
Education level: <input type="checkbox"/> Infantile Education <input type="checkbox"/> Primary Education <input checked="" type="checkbox"/> Secondary Education <input type="checkbox"/> Vocational Training <input type="checkbox"/> Adult Education <input type="checkbox"/> Others
E-mail: <b>greet.van.sas@hivset.be</b>
Please indicate whether you have experience in the following subjects: <input type="checkbox"/> Energy Saving <input checked="" type="checkbox"/> Responsible Consumption <input checked="" type="checkbox"/> Climate Change <input type="checkbox"/> Others
Please indicate whether you have experience in organizing and/or participating in projects: <b>We have an ecology group doing projects concerning nature and other ecological themes with pupils and teachers in our own school. We organised an eco fashion show, we developed a project about Al Gore's 'An inconvenient truth', we visited different ecological organisations, etc. We haven't done an international project yet.</b>
Please indicate your expectations regarding the meeting and the exchange of experiences: <b>We would like to cooperate with at least 2 countries as much as possible located in different areas (e.g. in North and South Europe or East and South, etc.).</b>
Title of the <b>PROJECT</b> : <b>Responsible consumption of fresh fruit and vegetables</b>
Main subject of the project – Please select one of the following subjects: <input type="checkbox"/> Energy Saving <input checked="" type="checkbox"/> Responsible Consumption <input type="checkbox"/> Climate Change <input type="checkbox"/> Others
Summary of the project (maximum 5 lines): <b>Due to an enormous supply of vegetables, fruit and other food during the whole year, consumers do not know anymore the origin of many products. In order to change this, we need to know the basics of responsible consuming. Which vegetables and fruit are ripe in which season? Which products grow and are produced in our region? Which products have to be imported? Why are Belgian tomatoes send to Spain although they have enough of them over there? This type of questions are the ideal start for an international project about responsible consuming.</b>
Observations/Remarks (maximum 5 lines): <b>We want to develop this project for teachers and pupils from BSO (Professional Secondary Education) who have to deal with food and consuming as a study object on a regular basis.</b>
