Title of the PROJECT: File 'Nutrition' – Responsible and healthy consumption
Main subject of the project – Please select one of the following subjects: <input type="checkbox"/> Energy Saving <input checked="" type="checkbox"/> Responsible Consumption <input type="checkbox"/> Climate Change <input type="checkbox"/> Others
Summary of the project (maximum 5 lines): The objective of the project is to enable the pupils to make responsible choices and to learn how to evaluate their priorities as consumers, recognizing simultaneously the impact of their choices to their health and on the social and natural environment. We want to make our students aware of the importance of eco (healthy) food and of healthy way of life.
Observations/Remarks (maximum 5 lines): The aim of the future project is to discover our country, to learn about traditional products, to know the organic cultivation, to compare our products to the products from other European countries, to understand the impact of the and over-consumption to our health and the environment.
