

**TRAINERS TRAINING MEETING OF THE E-CONS NETWORK
 Valencia, 26th - 28th March 2009**

Questionnaire to be completed by teachers who would like to present
NEW PROJECT PROPOSALS

Name of the teacher: **Marie-Paule Doom**

Name of the school: **MSGO De Moerbeij**

Country: **Belgium**

Education level: Infantile Education Primary Education Secondary Education
 Vocational Training Adult Education Others

E-mail: **marie-paule.doom@telenet.be**

Please indicate whether you have experience in the following subjects:
 Energy Saving Responsible Consumption Climate Change Others

Please indicate whether you have experience in organizing and/or participating in projects:
I participate in a project about ecological footprint. The project tends to calculate the footprint of a pupil in his school. I can tell that the project really raises the awareness of pupils about responsible consumption, energy saving and climate change.

Please indicate your expectations regarding the meeting and the exchange of experiences:
I would be very pleased to see how other schools work to make pupils more aware off the need of taking care for our planet. I would like to get in touch with schools where the idea of “making school on a responsible way” is part of the vision, not only in words but also in actions. I hope to find colleagues with the same drive as me, so that we can really touch pupils (and people).

Title of the **PROJECT**:

Main subject of the project – Please select one of the following subjects:
 Energy Saving Responsible Consumption Climate Change Others

Summary of the project (maximum 5 lines):
We integrate the Comenius project in the seminars about “global education” and “science and ecology”. In these weekly seminars our school takes actions to raise pupils’ awareness about social, cultural and ecological term, (anti)globalism and responsible consumption. The purpose is to create a high support for sustainability; first of all in the school and local community, later on, on a bigger scale (Comenius).

Observations/Remarks (maximum 5 lines):
